14th July 2007

To whom it may concern,

I would like to confirm I have known David for the past five (5) years and have always felt that he is an honest and trustworthy person. We have built a friendship that allows me to talk openly with him and know that our conversations will stay private. David is a helpful person who is both intelligent and sensible.

I can also confirm David has been working on a part time basis as Senior Door Supervisor for the past 5 years with us. Security Matterz are pleased with the work and initiative that David has shown during his time with us; this includes the completion of the GNVQ Level 2 training for Door Supervisors in accordance with the new S.I.A. regulatory body's requirements and his successful application for the new S.I.A. badge.

The duties that David undertakes vary from actually working on the door of a venue to arranging other Door Supervisors to work at various venues and even wages distribution. We hold David in very high regard and place great trust and faith in his ability to organise and control any type of situation that he faces while undertaking his duties for us.

Please feel at ease to contact me for a discussion at anytime.

Yours faithfully,

Eriq Mitchell
Proprietor
